NOTES

This document is not audited and should be read in conjunction with our Q2 2019 Quarterly Report to Shareholders and 2018 Annual Report.

Adoption of IFRS 15

The Bank has adopted the International Financial Reporting Standards 15 Revenue from Contracts with Customers (IFRS 15) issued by the International Accounting Standards Board (IASB) effective November 1, 2018, which replaced the International Accounting Standard 18 Revenue (IAS 18). The standard provides a single, principles-based five-step model to be applied to all contracts with customers and to determine whether the performance obligation is to provide the service itself (i.e act as a principal) or to arrange another party to provide the service (i.e act as an agent). The standard also requires entities to provide users of financial statements with more informative and relevant disclosures.

The adoption of IFRS 15 resulted in changes to the Bank's consolidated statement of financial position as below:

Comparative periods

Comparative periods continue to be presented under IAS18 and therefore is not comparable to the information presented for 2019 under IFRS 15.

For an explanation of how the Bank applies the requirements of IFRS 15 please refer to the significant accounting policy notes 3 and 4 in the Bank's quarterly report for period ended April 30, 2019.

Non-GAAP Measures

The Bank uses a number of financial measures to assess its performance. Some of these measures are not calculated in accordance with Generally Accepted Accounting Principles (GAAP), which are based on International Financial Reporting Standards (IFRS), are not defined by GAAP and do not have standardized meanings that would ensure consistency and comparability among companies using these or similar measures. The Bank believes that certain non-GAAP measures are useful in assessing ongoing business performance and provide readers with a better understanding of how management assesses performance. These non-GAAP measures are used throughout this report and defined below.
